

When you're with Fletcher Building Group, you're with us!

From first-aid skills to employee wellness, we deliver. Life Care Consultants is focused on improving the lives and wellbeing of Aotearoa's kaimahi in every way we can and that's why companies like Fletcher Building have trusted us for 30 years as a professional partner provider in health, wellness, and training.

You're here today because you're responsible for staff health and wellbeing in the workplace and, your employer or your business is a preferred contractor to Fletcher Building. Worker safety is crucial and a legal obligation, but beyond compliance, Fletcher Building are working as true Rangatira, inviting you to be included in and to benefit from their service partnership arrangement.

From pre-employment and health monitoring to first aid training, we can mahi ki a koe (work with you) by region or business unit, co-ordinating services with the Fletcher Building company you are contracted with, or to your convenience. Finally, you'll gain a lot of advantages from our nationwide coverage; consistent and professional delivery of service, reporting and risk analysis and all the efficiencies of working with a single supplier.

Pre-Employment

Drug and Alcohol Screening (Required for all Fletcher Building sites):

- 6 – cup drug screening with breath alcohol.

Medicals:

- Ensure your candidate is fit for your workplace and establish a baseline for their annual health monitoring.
- Includes: medical declaration and health assessment- hearing, vision, lung function, blood pressure, BMI, ROM assessments.
- Best delivered with the drug and alcohol screening.
- Pre-employment reporting platform.

Annual Health Monitoring

Provides visibility of the health and wellbeing of your staff, identifying any changes over time:

- Standard – hearing, vision, lung function, blood pressure (WorkSafe compliance monitoring).
- Premium – hearing, vision, lung function, blood pressure, BMI, blood glucose & cholesterol monitoring.
- Dynamic online reporting platform – identifying risk.

First Aid Training

Recommended for all Fletcher Building sites and a training for life....

- Advanced First Aid Training - Assessed to NZQA unit standards 6400, 6401 and 6402. The course is 8 hours with pre-course resource packs, held either on your site or at one of our public courses.
- Refresher / First Responder - Assessed to NZQA unit standards 6401, 6402. The course is 4 hours with pre-course resource pack, held either on your site or at one of our public courses.

As an additional value add when signing up for annual health monitoring, Life Care Consultants would like to offer you and your people a quarterly toolbox talk session. This is a predetermined list of already recorded and scripted educational videos with a focus on health education and health related issues identified in New Zealand's workforce. Sign up with us today and we'll tell you all the details on how this initiative works.

We are here to make a difference, to you, your business, and your people, with one simple purpose - empowering Kiwis and saving lives.
